Your request concerning REACH

Dear Sir or Madam,

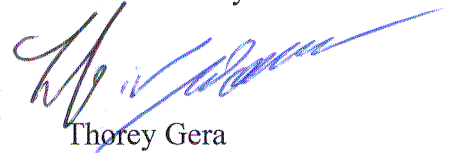

Thank you for your interest in the subject REACH. We would like to inform you about the updated state of realisation in our company.

You give textiles to us for finishing. Consequently, the fabric remains in your possession. Therefore we have no obligation on its part according to substances of very high concern which are subject to the duty to communicate information along the complete supply chain in accordance with Article 33 REACH. The substances of very high concern are published in a list of candidates whose relevant version is announced on 17 December 2015 by the European Chemical Agency (ECHA).

As a commission finisher we will assure you that the articles finished by us with base chemicals, auxiliaries and dyes do not contain more than 0,1% (w/w) of any substance registered in the list of candidates (dated 17 December 2015) in accordance with Article 59 (1) REACH.

Besides, we can assure you that our specialists are aware of their responsibility concerning the products supplied to you and will take all appropriate measures within the scope of their care to supply you further on with products in a high quality manner according to the requirements of REACH.

Yours faithfully

Thorey Gera
Textilveredelung GmbH
